

PROMAC

Position: Engineering Technologist

Summary:

Pro Mac Manufacturing is looking for a key contributor to join our team. This role is accountable for design, drafting and sales support for our Sawmill team. We work hard to create value for our customers through our core businesses

At Pro Mac, we believe that every person deserves to have purpose in their careers. In accordance with our Core Values, we want you to be inspired to improve and grow. You are passionate and engaged to want to make Promac and yourself be the best versions that you can possibly hope for.

Essential Duties and Responsibilities:

- Provide drawings or designs for mechanical equipment manufactured for Pro Mac or for an external customer in accordance with prescribed corporate standards
- Provide necessary revision of corporate drawings
- Review other technologists drawings as directed
- Project management including review revision requests and revise drawings if appropriate
- Produce shop work orders to manufacture sawmill parts and equipment

Qualifications and Experience

- Engineering Technologist diploma required
- A minimum of two (2) years' experience in mechanical design and drafting; preferably in a Machining / Fabrication environment
- Project management and Estimating experience would be strong assets
- Proficient in Solidworks and/or AutoCAD
- Possesses excellent interpersonal skills
- Must have good communication skills both verbal and written

To apply:

Please apply with a cover letter and resume to Mike Williams, Human Resources Leader.
